ABOUT

A web developer based in Toronto,
I enjoy building apps that solve
problems in my own life, searching
out the next best vegan restaurant
and teaching yoga!

SKILLS

- Agile Scrum Methodology
- Storyboarding, prototyping, creating wireframes
- UX testing (A/B Testing)
- Google Analytics
- Project Management Tools (Jira, Trello)
- JavaScript, React, HTML, CSS, jQuery
- Data Structures & Algorithms

EXPERIENCE

PRODUCT MANAGER

Liquid Analytics | June 2017 - Aug 2018

- Managed 10 developers to deliver 2 consumer web apps within a 1 year timeline
- Adapted to the role of QA, UX/UI Designer, and client liaison as needed throughout the projects
- Created requirements and technical design documents for developers

DATA ANALYST

Autodesk Inc | Jan 2016 - Dec 2016

- Calculated subscription metrics and built custom dashboards using SQL for executives to easily reference
- Analyzed user behaviour data using R, Python to help marketing & design teams make effective decisions

PROJECTS

WEATHER WARDROBE

JavaScript, jQuery, API | HackerYou 2018

- The user inputs their travel destination and trip start and end date. Utilizing the Google Places API and Dark Sky API, the web app outputs weather information and the appropriate wardrobe items to pack
- Pair programmed this app with a classmate to fully experience git merge conflicts!

FLEX FITNESS

JavaScript, React, Firebase | HackerYou 2018

- Built with two other classmates this web app allows users to input their custom gym routine and add details such as weight and reps completed while working out.
- Designed everything from Firebase data structure to UX/UI to meet our client's requirements

EDUCATION

FRONT-END DEVELOPMENT IMMERSIVE BOOTCAMP

HackerYou College of Technology | Oct - Dec 2018

BACHELOR OF APPLIED SCIENCE (B.A.SC) HONOURS

Management Engineering | University of Waterloo | 2017
